

H.T. TRANSFORMER FOR GAS FLAME IGNITION

The 1815 series employs the latest technology in transformer design. These transformers give maximum performance and are manufactured to the highest standards.

- 110 or 230V Primary Voltage ● 8000V Secondary Voltage ● 20mA Secondary Current
- Rating - 150VA ● Class H Windings ● Resin Impregnated
- Fully Isolated H.T. Winding ● Insulation Rated at 20kV ● Fitted with H.T. Output Terminal
- Operating temp -30°C to +70°C
